EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claim 1, and the first line 1 of claim 2 have been placed on a separate sheet of paper. (See the Attachment paper).

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance:

The claimed invention is directed to a feature-dependent operating method between mutually connected equipments through a digital interface. The independent claims identify the feature "receiving requested feature information through a digital interface and storing the received feature information; and performing a requested operation or not based on the stored feature information". And furthermore, the independent claim 14 identifies the feature of "checking whether a requested feature information is received or not; and transmitting the data to be offered according to a requested operation to the connected equipment in a format pre-specified for the connected equipment if the requested feature information is not received". The closest prior art, Wood et al discloses a digital recording and playback apparatus, either singularly or in combination fails to anticipate or render the above underlined limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
